## **Project Title: Hogwarts School of Witchcraft and Wizardry**

I want to build a multiple page website about Harry Potter, specifically Hogwarts and its houses. It would be good for there to be a navigation bar at the top, with buttons for each house.

Hogwarts is kind of mysterious, as it's a castle and many pictures are at night, so probably a darker color scheme like dark grey or similar would work well for the background.

- **Overview/home page**
  - Overview of Harry Potter and what Hogwarts is;
  - Section below describing arrival on the Hogwarts Express through Platform 9&3/4 to the Sorting hat ceremony

**Separate pages for each house in their colors describing their values, with a section for famous characters, etc.**

- **Gryffindor**
  - values courage, bravery, nerve, and chivalry
  - mascot is the lion
  - colors are scarlet red and gold
  - Famous characters:

    - Hermione Granger
